

Is Interest of Interest to You?

INTEREST is one of the most potent earning factors in the world today. Every financial institution, corporation, company and moneyed individual, recognizes in *interest* an all important subject for *daily* consideration.

WALL STREET'S rates of interest are cabled to every nook and cranny of the civilized world. The fraction of one per cent change in the rate records fortunes.

GOULD, SAGE, VANDERBILT AND OTHERS have made, and are making today, fortunes---in *interest*.

INTEREST is the very life blood of every bank in the world; without it no bank can live. This *bank* lives on *interest*. Every dollar we loan out returns us just so much *interest*. The more money we can obtain from *depositors* and loan out to *borrowers* the greater our success. In a local institution, such as ours, the *volume* of business is of as much importance as the *rate* of *interest*. \$100,000 made up of the savings of a thousand depositors is of more value to us than \$50,000 made up of the deposits of one hundred people, and earning a larger rate of interest. The greater the number of people doing business with us the larger our field of operation for loaning.

THEREFORE we want to "get acquainted" with every man, woman and child in this county. We want you to feel that this bank is a bank for the people; that we would rather have your name on our books for a small deposit than not to have it at all.

WE have opened a *Savings Department* and arranged to *pay interest* on all sums deposited there. Of course on small sums *interest* will not show up very big at the start, but you will be surprised to see how rapidly it accumulates when *compounded* every six months.

START THAT INTEREST BEARING SAVINGS ACCOUNT TODAY

—get one of our little Home Savings Banks. We loan it to you locked. We keep the key.

Drop dimes, nickles, or any other small change into it, and bring it in whenever convenient. We will open it and place the contents to your credit, where it will earn 4% interest.

Harbuck's Husky Heroe S

No. 7.

Carl Earthman, 2nd. Base

By Tim.

Another native son of the Harbuck aggregation is no less than Carl Earthman. He was born in Van Alstine, Tex., for which he is duly grateful, March 20, 1885, being the day and year.

After his parents named him—Carl C. Earthman it should read—Carl started his career at Grason college at White-wright. Being naturally endowed with a second baseman's conformation, the college team planted Carl at the second sack where he has remained his life-long.

First semi-pro work was done for Selma, La. That was in 1905, and two years later Carl found himself playing with Shreveport. Last year he was called for Great Bend of the Kansas State league, and will be remembered as having played with Douglas in the El Paso Fair tournament.

By profession Carl C. Earthman is a bookkeeper. What could be finer? Perhaps before the end of the season manager Harbuck will need a bookkeeper to keep records of percentages and other details—perhaps, I say.

Tomorrow—Flick.

AGRICULTURAL COLLEGE WILL

PLAY WITH SCHOOL OF MINES.

Agricultural College, N. M., April 29.—There will be no ball game for the college team this week, but next week the School of Mines will be here for a series of games on Saturday. The spirit existing between this college and the School of Mines is very friendly, and all the games between teams of the two institutions have in the past been very enjoyable on this account.

Carl Earthman.

CACTUS LEAGUE DOPE

By N. M. Walker

SATURDAY afternoon the four teams of the Cactus league will open the season of baseball in these parts. El Paso will play Cananea at Cananea. Douglas will play Bisbee at Bisbee and a ball will be given in the Bisbee opera house to properly celebrate the event. Strengthened by Stanley Gray, the Waco pitcher, who joined the club this week, and by Rumsey, if he arrives in time to accompany the team to Cananea, the El Paso team will go after the top liners in the league Saturday afternoon with a determination to take both games if possible and at least get an even break out of the double barreled series.

The night trip, change of cars and the arrival in Cananea the same afternoon the game is to be played will be a handicap on the El Paso club, but they are a bunch of huskies and should be able to get their sea legs under way by the time the mining camp fans come down from the mines to see the game after the works close. Sunday's game will be the real test of strength and it is probable that Cananea will work Thomas against El Paso in this game. Gray may be sent in for El Paso if he is working well and the game promises to be a pitching battle with the other 16 men playing a heavy second fiddle part.

Rumsey, as husky as Harbuck and as broad shouldered and deep chested as Andy Anderson, arrived Friday morning from Humble, Texas, and will accompany the club to Cananea. This will make four pitchers on the staff for the Cananea games, as Stanley Gray who arrived Thursday will also accompany the team. Gray had a workout Thursday afternoon and his style made a favorable impression on his teammates. In addition to being a pitcher, Gray is also a utility man of no mean ability and is able to play every position on the field including the pivot one behind the bat. In addition to his work as pitcher Gray will be used as a utility man during the season.

Lamar, who was released Thursday by manager Harbuck has been signed by Bisbee and will report there Saturday morning for the Douglas-Bisbee series. Lamar will play short with the Bisbee team and expects to finish the season there with his college chum Grindle who is catching for the Maroons.

Hubbatt, captain and shortstop on the 1909 El Paso club, is more than making good with Shreveport. The report of his fast fielding was given as one of the features of the game.

Dalrymple, the manager of the Bisbee club, who recently resigned, has reconsidered his move and will continue to manage the Maroons during the Cactus league season. Mrs. Dalrymple found the altitude too high at Bisbee and was forced to return to the coast, where it is lower. This caused Dal to make his decision and he tendered his resignation to the Bisbee managers in good faith. But the board decided that they needed just such a man as the silver haired man and persuaded him to remain until the close of the present season.

Another prodigal is knocking at the door for admission to the warm fire of popular favor within. First it was Johnny Kling, who thought the National game could not get along without his services. After a year of pool playing in Kansas City, he discovered that he had the dope reversed and that he could not get along without the National game.

Mike Donlin was another big league who got off the reservation and who is now anxious to return. Mike went on the stage with his wife, who is Miss Mabel Hite on the bills, and for a time he found the glare of the lights as fascinating as the glare of the summer sun in the baseball field. But his claim to fame was his baseball ability and as soon as he cut loose from the game which had given him this fame he found his star was not twinkling so brightly.

Now he is wanting back in the game with the Giants. Since the Giants need a Donlin in the lineup, it is probable that the long chap will be taken back as he has not broken any rules.

Douglas has got the pitcher hiring bug. Eli Cates, a mound worker who belongs to the Washington American league, but who is not wearing a uniform of that club, has been secured by O'Donovan to strengthen his pitching staff. Cates is a find of LeBradt's.

What Benjamin SAYS

Because a guy's got bats in his belly that's no sign he can wallop the boss kid with one of 'em. There's plenty of bats in a bug house, but never any bugs in the battery. Ask Art Wood.

who found him out on the coast and says he is carrying the goods with him.

Saturday afternoon the High school any Military Institute will play an interschool championship game at Washington park, and Sunday afternoon the Portland Cement team will play the Union team at Washington park.

Woods, who was given a tryout in the Bisbee series as field umpire, will umpire at Cananea in the El Paso series. He has been ordered to report by Vic Walling, who is handling the umpires for the league and he will have full charge in these two games.

STATISTICAL BALL DOPE.

AMATEUR GAMES.

LAMAR WINS, 13 TO 4.

The Lamar school team and the high school team played an exciting game at the car barn for Thursday afternoon. Fisher pitched exceptionally well, getting 12 strike outs to his credit and ending up with a home run and a three bagger. Bowden and Thomas were knocked out of the box and Lyman substituted. The Lamar team won by a score of 13 to 4.

The line-up:
Lamar—Hawkins, 1b; Williams, 2b; Darvall, 3b; Ruby, ss; Boyd, lf; Walker, cf; Patterson, rf; House, c; Fisher, p.
High school—Robertson, 1b; Moeller, 2b; Kuhn, 3b; Chenoweth, ss; Vaughn, lf; Ross, cf; Henry, rf; Anderson, c; Bowden, p; Thomas, p; Lyman, p.
